

radio::Subcarrier::Add

```
graph LR; A[radio::Subcarrier::Add] --> B[radio::Sinusoid::next]
```

A diagram showing a sequence of two function calls. The first call, 'radio::Subcarrier::Add', is enclosed in a gray rectangular box. A blue arrow points from the right side of this box to the left side of a second rectangular box. The second box is white and contains the text 'radio::Sinusoid::next'.

radio::Sinusoid::next
